The Social and Political Thought of Herbert Spencer

David Wiltshire

'It is not David Wiltshire's intention to dwell on the sadness of Spencer's life. But it is the success with which he does what he sets out to do that conveys it. . . . In so accurately and dispassionately recalling Spencer's life, Wiltshire may at last have ensured his merciful death.' *New Society* £7.50 *Oxford Historical Monographs*

The Gladstone Diaries

Volumes V and VI, 1855-1868

Edited by H. C. G. Matthew

These volumes record the daily work of Gladstone's great period as a financial reformer, his consequent rows with Palmerston, his widening political horizons and ascendancy within the Liberal party, his changing views on parliamentary reform, and his change of constituency from Oxford to Lancashire and Greenwich. 'A rich mine of mid-Victorian politics and social life. . . . The overwhelming impression is of energy.' William Haley in *The Times* £40

The New Liberalism

An Ideology of Social Reform

Michael Freeden

'Michael Freeden has written a significant and much-needed book. . . . He marshals his evidence with considerable lucidity, into a consistant and systematic exposition. . . . *The New Liberalism* advances its case in a vigorous and scrupulous way that will provoke much thought upon the issues it raises. Many of its points are indisputable and well substantiated. The subject has been long overdue for scholarly treatment and the author deserves both our gratitude and fair hearing.' *Times Literary Supplement* £10

Adam Smith: Lectures on Jurisprudence

Edited by R. L. Meek, D. D. Raphael and Peter Stein

In 1958 there came to light a new set of student's notes of the lectures on jurisprudence delivered by Adam Smith at Glasgow in 1762-3. This volume includes both the new notes and, for comparison, the entire Cannan notes (published in 1896 by Edwin Cannan), as well as the so-called 'Early Draft of Part of the *Wealth of Nations*' and two fragments on the division of labour. £20 *Glasgow Edition of the Works and Correspondence of Adam Smith*
